

Year 6

We have been busy making interactive story maps as part of our science-fiction unit during literacy. Children have enjoyed using images to support their literacy and the language they have generated has been excellent. During science we have undertaken an investigation about shadows and children are busy writing a scientific report to record their results.

Towards the end of next week we will be starting another round of mock SATs. This will allow us to see how children have progressed since their last round in October and is another opportunity for them to apply their learning and become more comfortable with the test format ahead of May's tests.

We are looking forward to next Friday's trip to The British Museum. Any parents who have not returned permission slips please ensure these are in by Monday to allow us to confirm numbers with the museum. Please also remember that payment for this trip must be made on Parent Pay.
