

Year 3 Spring 2 Homework

Dear children and adults,

This term's homework is led by our knowledge-rich curriculum to develop your preferred learning style and methods of presentation; to become more independent learners; improve your research and communication skills and engage your whole family in your experience of school. You will be given several questions to research each half term. We expect all homework to be of a high standard. We expect it to show effort, pride and time taken and that it is given a high profile from you at home too. We also expect it to be done and handed in on the date due.

READING

You should be reading at home every day. You have a class reading record in school to sign for when you have read. Keep your reading book in your bag and bring it to school every day.

Remember you can also visit Wood St Library!

NUMERACY

You need to practise your times tables every evening. Remember to learn the division facts as well as the multiplication. Use TTRockstars to help you practice! You will also need to practise your number bonds.

Key Vocabulary

Do you know what these mean and how to write them?

invasion
empire
conquest
friction
magnetic pole
repel
botanical
summit
fold mountain
block mountain

Make a glossary of these key words.

SPELLING

Each week you will be given a list of words to spell. Please learn these as we will be checking the following week.

Remember you can answer your questions in whichever way you wish such as posters, art work, movies, written poems, stories and PowerPoints. We look forward to seeing your final projects.

Homework Questions for Y3: Autumn Term 2

Week 2

[illegible]

History: What did the Romans bring to Britain?

When the Romans came to Britain, they brought lots of inventions and advancements that changed life in Britain forever. Some of the things they built for the first time, are things that we still use today! What can you find out about the things that Romans brought to Britain?

Week 3

Science: Forces in Action!

We have learnt about how forces cause things to move, fall and slow down. Your challenge is to get your parent or carer to take photos of you doing something active. Can you add arrows to the photographs to show how forces are affecting your body?

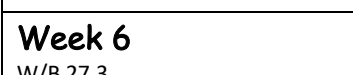

Week 4
W/B 13.3

Design Technology: Cardboard Constructions

We have learnt about joining cardboard together in ways that makes it stronger. Collect as much cardboard as you can together and make the biggest freestanding shell structure that you can! Take photos and add some information about your structure.

Week 5
W/B 20.3

Geography: Where does the river go?

Choose a river in the world and create a fact file about it. You might include: information about where the river's source is, where its mouth is, any features such as meanders and tributaries you can see, a map, pictures and diagrams.

Week 6

Art & Design: Get Sketching!

In Art & Design this half term we will be learning to sketch and draw accurate pictures in pencil. Choose some objects at home and practise sketching them. Start with the basic shapes in light pencil, then move to shading, hatching and crosshatching to add shadow, detail and texture.

Extra Challenge!

IN THE NEWS

Every week, we would like you to find out about what is happening in the world. Try to find out one thing that is happening locally (in London), nationally (in the UK) and globally (in other countries around the world).
