Lilac Room Rows Their Boat

In line with the song 'Row Row Row Your Boat', the children in Lilac Room have been taking part in sensory play with sand and water; helping them to develop their language, imagination and fine motor skills.

Magnolia Creates Owls! Toot-Toot!

The children Magnolia Room, continuing their theme of nature – have been working on creating creatures such as owls and snails. They created their owls using brown paint, orange paper for the beak and different colours of felt for the feathers. They also made snails with colourful shells, decorated with purple, yellow and green paint.

(Right): Owl made by Ellyssa

"Owl say toot-toot!"

"They live in trees"

Acorn & Cherry Talk About Teeth

Acorn and Cherry Class children, (along with the topic 'people who help us') have been learning about the dentist. In addition, they learned about healthy and unhealthy food. They put food into different baskets; a good basket with healthy food and a bad basket with food we should only eat occasionally- as a treat. The children talked about how too much sugar is not good for our teeth.
