

# WOODSIDE PRIMARY ACADEMY

## Nursery (Day Care) Newsletter

### This week: Rice Play, Bug Painting, Model Boxes and Hairdressers!

#### MAGNOLIA ROOM

We are continuing the theme 'Nature'. The children used bug stampers to create this 'creepy crawly' bug painting and really enjoyed this creative and messy activity!

Nancy named the 'wiggly worm', Millie named the 'buzzy bee'. We are looking forward to going on our nature walk around the nursery day care gardens.

#### LILAC ROOM

This week the children in Lilac Room used rice for sensory play. Sensory play encourages children to manipulate and mould materials, building up their fine motor skills and coordination. The children used metal resources to pour, scoop and stir. Why not try this with your child at home?

#### CHERRY CLASS

This week we have been using empty boxes to make models. Mohammed Rayan made an aeroplane. Lucas made Incy Wincy Spider. In this activity the cherry children learned problem solving, as they worked out what shapes they needed and as they cut the shapes to the right size.

#### ACORN CLASS

For our topic 'people who help us', the children in Acorn Class have been leaning about hairdressers. They looked at themselves in a mirror and painted a self portrait looking especially at their hair colour and length.

Don't they look smart?
