

# LET'S FIGHT FOR MORE SOCIAL HOMES IN WALTHAM FOREST!

We're a group of ordinary local people with personal experience of the housing emergency, in a city where rents have spiralled out of control.

We know that Waltham Forest Council aren't sticking to their own pledge to deliver social housing. We know that housing developers are changing plans to maximize their profits, when they think no-one's looking. But we're looking.

We are taking on powerful organisations to demand high quality social housing across our borough. But we need your help.

Join our people powered campaign, led by the residents of Waltham Forest. It's time to push back against housing injustice and win truly affordable, high quality homes for all.
