

Woodside Primary Academy Autumn 2025 Clubs Programme Forest Site

In this booklet...

1. A short description of Autumn Term after school activities on Forest site.
All clubs take place from 3:30-4:40.
2. Information on the Arbor online booking system with step-by-step instructions.

Monday Science & Art Club: Years 2 & 3

(10 weeks)

Science Club – 5 weeks: Calling all young scientists! Do you LOVE Science? Do you enjoy exploring, investigating and creating new things? If yes, then Science Club is perfect for you! Children will be introduced to the fascinating world of science through exploration of a range of practical activities. We will carry out various experiments and complete a variety of challenges.

Art Club – 5 Weeks: A club for all mini artists! This club will be focusing on creating different art pieces using different techniques and skills. There will be a focus on different artists and their work will be used as an inspiration to create our own masterpieces! We will be creating Pointillism artwork, Kandinsky Circles and rock painting. A brilliant opportunity for students to explore their artistic side!

Monday or Friday (select one day only) PE Multi Skills:

Year 1 (10 weeks)

Due to the popularity of sports clubs at Woodside, we will be running 2 sessions of this club. Choose one day only- either the session that runs on Mondays or the session that runs on Fridays.

Multi Skills Club introduces young students to a wide range of athletic activities. This inclusive and engaging curriculum is designed to develop basic motor skills, coordination and a love for physical activity. Through fun and varied sports, children gain exposure to different movements and techniques, laying the foundation for a healthy and active lifestyle.

Monday or Friday (select one day only) PE Multi Skills:

Year 2 & 3

(10 weeks)

Due to the popularity of sports clubs at Woodside, we will be running 2 sessions of this club. Choose one day only- either the session that runs on Mondays or the session that runs on Fridays.

Our Multi Skills Club introduces young students to a wide range of athletic activities. This inclusive and engaging curriculum is designed to develop basic motor skills, coordination and a love for physical activity. Through fun and varied sports, children gain exposure to different movements and techniques, laying the foundation for a healthy and active lifestyle.

Tuesday Spanish Club: Years 2 & 3 (10 weeks)

Embark on an exciting Spanish learning adventure! From engaging roleplays and catchy songs to exciting games and creative projects; it's all about having a great time while absorbing Spanish vocabulary and experiencing the vibrant culture. Our beginners Spanish Club provides children with the foundations of this beautiful language and reinforces what they learn during school Spanish lessons.

Tuesday Magazine & Origami Club: Years 2 & 3 (10 weeks)

Magazine Club – 5 Weeks: Do you enjoy reading magazines? Would you like to explore a variety of magazines and learn about the features? If the answer is yes, then join our Magazine Club. Unlock the joy of learning and fun with our collection of children's magazines. With their dynamic blend of pictures, words and games, Magazine Club provides an engaging way for children to explore, learn and have fun. Our diverse range of children's magazines offers something for everyone.

Origami Club – 5 Weeks: Are you passionate about learning the art of folding paper? Do you enjoy folding paper to form complex shapes? If yes, then origami club is perfect for you. Children will be introduced to the art of origami and explore a range of designs over the 5 weeks. They will have the opportunity to design and create complex pieces. Most importantly, origami will help children focus on meditation in the calm classroom environment.

Tuesday Music Technology Club: Years 2 & 3 (10 weeks)

In this club, children will explore the magic of music through harnessing the power of technology. We will experiment with sounds and visuals, creating different types of music on user-friendly Google Chromebook laptops. Each week children will enhance their digital skills whilst being expertly guided to unleash their creativity through music composition.
