

Year 4 Maths Long Term Overview Scheme 3.0

Rationale

This overview is designed to run alongside the White Rose Schemes of Learning (Version 3.0) found [here](#). The small steps within White Rose are not necessarily designed to cover one lesson so some may be repeated which can be used to consolidate concepts or allow children greater access to reasoning and problem solving. This is particularly evident in the Y1 schemes. The lessons that are linked to the [DFE ready to progress criteria](#) are identified with a reference such as **(NPV-1)**, teachers can use these to refer to the document for additional planning support. Due to differing term lengths, these overviews do not directly match those on White Rose. For instance, some units are started earlier in the term or the term before, but they all correlate with the schemes of learning.

Vocabulary

There are also two vocabulary rows on the document, which show the subject specific vocabulary that needs to be introduced or re-introduced as part of the unit as well as what should have been covered in the previous year group. It is essential that teachers refer to previous year's vocabulary especially if children are not secure. If children are still struggling to define certain pieces of vocabulary, teachers should be encouraged to reintroduce them. Whole school vocabulary progression documents are within the Maths area on ReachIn and this language is also present on the accompanying knowledge organisers.

Consolidation/revisiting

The consolidation row has been removed from the most recent overviews as we suggest that the White Rose 'Flashback 4s' are used to revisit and consolidate learning as they reduce workload for teachers and comprehensively revisit taught content. If you chose not to use these, teachers should be encouraged to spend half the week looking at the previous year's small steps before teaching a unit and revisit them briefly. For the other half, they'd be encouraged to revisit learning they've done during the current year.

Also, the new White Rose schemes have removed the explicit recap sessions, however the beginning of the units include steps from the previous year to ensure children have the required knowledge to access new learning.

Assessment/Consolidation Weeks

The end of unit assessments have been left in, these can be taken from the previous years' resources as they will broadly match the topic being taught. Finally, within the plans there are also assessment/consolidation weeks which have been put in to revisit topics children struggled with or as buffers for if and when units overrun to accommodate assessments, trips, productions etc. These documents are also fully editable so topics or assessment weeks can be moved around or lengthened if necessary and to accommodate different term lengths. The term lengths are kept as seven weeks for the two autumn half terms and summer 2 and six for the rest. However, they can be adapted to meet differing term lengths

Autumn 1	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7
Units	Cover previous knowledge – Addition, subtraction and place value.	Number: Place Value	Number: Place Value	Number: Place Value	Number: Addition and subtraction	Number: Addition and subtraction	Number: Addition and subtraction
Lesson objectives (Small steps)	Mental maths week	1) Represent numbers to 1,000 (NPV-2) 2) Partition numbers to 1,000 (NPV-2) 3) Number line to 1,000 (NPV-3) 4) Thousands (NPV-2) 5) Represent numbers to 10,000 (NPV-2) 6) Partition numbers to 10,000 (NPV-2) 7) Flexible partitioning of numbers to 10,000 (NPV-2) 8) Find 1, 10, 100, 1000 more or less (NPV-3)	9) Number line to 10,000 (NPV-3) 10) Estimate on a number line to 10,000 (NPV-3) 11) Compare numbers to 10,000 (NPV-3) 12) Order numbers to 10,000 (NPV-3) 13) Roman numerals	14) Round to the nearest 10 (NPV-3) 15) Round to the nearest 100 (NPV-3) 16) Round to the nearest 1,000 (NPV-3) 17) Round to the nearest 10, 100 or 1,000 18) Mini assessment (end of unit assessment)	1) Add and subtract 1s, 10s, 100s and 1000s – concrete addition  2) Add up to two 4-digit numbers – no exchange - concrete addition – see model above 3) Add two 4-digit numbers – one exchange: Pictorial  4) Add two 4-digit numbers – More than one exchange - Pictorial see above	5) Subtract two 4-digit numbers – no exchange – use concrete  6) Subtract two 4-digit numbers – one exchange - see model above 7) Subtract two 4-digit numbers – more than one exchange 	8) Efficient subtraction -  Children may draw base ten or PV counters and cross off. Use place value counters – method from year 3 9) Estimate answers 10) Checking strategies 11) Mini-assessment (end of unit assessment)
Vocabulary (Year group specific)		Four-digit Thousands	Thousands Four-digit 1000 more 1000 less Roman Numerals Round	Thousands 1000 more 1000 less Four-digit Round	4-digit number Thousands Operations Methods	4-digit number Thousands Operations Methods	4-digit number Thousands Operations Methods

Autumn 2	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7
Units	Measurement: Area	Number: Multiplication and division	Number: Multiplication and division	Mental Maths Week	Number: Multiplication and division	Number: Multiplication and division	Consolidation and Assessment Week
Lesson objectives (Small steps)	1) What is area? 2) Count squares 3) Make shapes 4) Comparing areas 5) Mini-assessment (end of unit assessment) Unit could be extended to be over two weeks and time taken from assessment week or Multiplication and Division	1) Multiples of 3 (NF1, MD-2) Concrete multiplication 2) Multiply and divide by 6 (NF1, MD-2) 3) 6 times-table and division facts (NF1, MD) Concrete division	4) Multiply and divide by 9 (NF1, MD-2) Continue with concrete division and multiplication – this week to embed 5) 9 times-table and division facts (NF1, MD-2) 6) 3, 6 and 9 times-table (NF1, MD-2)	Monday use factors partition to carry out multiplication Tuesday – doubling and halving Wednesday Add three 3-digit multiples of 10 Thursday Add 3 or 4 small numbers, finding pairs that total 10 Friday Find 1, 10, 100 and 1000 more or less	7) Multiply and divide by 7 (NF1, MD-2) - Pictorial for this week Move onto pictorial for x Children can represent their work with place value counters in a way that they understand. They can draw the counters using colours to show different amounts or just use the circles in the different columns to show their thinking as shown below.	11) Multiply by 1 and 0 – Pictorial 12) Divide a number by 1 and itself (NF1, MD-2) 13) Multiply 3 – Introduce grid method Start with multiplying by one digit numbers and showing the clear addition alongside the grid. numbers (NF1, MD-2) 14) Mini assessment/problem solving	Week used for additional activities on content learnt or as consolidation. Could also be used to bring forward the first week of next term.

		 2)			Students can continue to use drawn diagrams with dots or circles to help them divide numbers into equal groups.  Encourage them to move towards counting in multiples to divide more efficiently. 8) 7 times-table and division facts (NF1, MD-2) 9) 11 times-table and division facts (NF1, MD-2) 10) 12 times-table and division facts (NF1, MD-2)
