Year 1 Autumn Term 2 Homework

Dear children and adults,

Please see below for the year group homework. Whilst we expect all pupils to read and practice their number bonds each day, please note that the curriculum homework is an optional extra. Should your child choose to complete the homework, we have planned it so that is suited to your child's own preferred learning style and methods of presentations; to become more independent learners; improve their research and communication skills and engage their whole family in their experience of school.

Your child will be given several questions to research and answer each half term.

READING

You will receive two reading books: one matching your reading ability and one of your choosing. You will need to read your book every day and bring it to school every day. Reading books will be changed once a week.

NUMERACY

You need to practice your number bonds to 5 and 10. You can also count forwards and backwards from any number and find one more and less than any number within 20.

Key Vocabulary

Do you know what these words mean and how to write them?

Differences
Similarities
Respect
Autumn
Spring
Summer
Winter
Christmas
Design
Evaluate
Ariel map
Features

Make a glossary of these key words.

SPELLING

Each week you will be given a list of words to learn to spell. Please practise these words at home as we will be checking the following week. You can practice these in any way you choose! Please ensure the spelling books are brought back in every Friday.

Remember you can answer your questions in whichever way you wish such as posters, artwork, movies, written poems, stories and presentations. We look forward to seeing your final projects.

Homework Questions for Year 1: Autumn 2

Week 3 WB 16th November 2026	Geography: Can you create an ariel map of your dream park?
	In geography we will continue learning about maps and ariel view. We will be redesigning our school playground. Can you design a play park of your dreams? Think about symbols you will use for the different play areas. You can choose to draw a map or create a messy map with whatever you have at home.  
Week 4 WB 23rd November 2026	Art: Using primary and secondary colours, can you turn your hand prints into animals? In Art we will continue to explore primary and secondary colours. Can you mix colours together and paint your hands. Can you turn them into animals? Think about what colours you will need and how you can make your chosen colour. Will you need to paint your hands different colours or just one colour?  
Week 5 WB 30th November 2026	Science: How many sustainable materials can you find?
	This half term in science, we will be looking at different materials. Look around your house or your local area and identify different the different materials you can see. Some questions you might want to explore: What are they like? Are they rough and strong? Why do you think this material was chosen? Is there another material that can replace it? Is the material sustainable?

Week 5 WB 7th December 2026	PSHE: Celebrating Differences
	In PSHE this half term we will be looking at what makes us the same but different from our friends and friendships. Can you go on a Library Safari and choose a story that features a character who is different from you in some way—this could be someone from a different culture, someone with a disability, or someone who lives a different kind of life. Once you have read it, can you talk about a way that character is unique but also what makes them similar to you? You can draw a picture to share or bring the book in for the class to read!
