

Year 4

It has been a fantastic week in Year 4. As you may have heard, on Monday the school was invaded by aliens. Children used this incident as a focus for writing and wrote a newspaper article about what they saw. Fortunately, the aliens have now left the school and all of our teachers have been returned! Next week, our writing will focus on recounts and letters.

In Maths, children have been solving word problems involving the four operations. Next week, we will be looking at telling the time and solving time problems so please start practising at home.

This week children have been learning about fair trade across the world. They have focused on the different jobs needed to farm and sell products and debated who should be paid the most money for their hard work. Next week, we will begin to make classroom resources for our new topic 'Royal Roses'.

Thank you to everyone who wore a festive jumper today and made a contribution.
