

Year 2

This week Year 2 have been making pirate hats as part of Design Technology. They had to draw neatly around a template, cut carefully using scissors and stick the pieces of card together using glue. As they made their hats, the children thought about how they could explain the process to someone. The next day they wrote instructions to tell everyone how to make a pirate hat.

We would like to thank all the parent volunteers that are coming to read with children in Year 2. The children enjoy reading to an adult and it supports them in making good progress.

Reading is so important. Please read with your child every day and sign their yellow reading record book. Don't forget to ask them questions about what they have read to check their understanding. If you need any ideas for questions to ask please see one of the Year 2 teachers. Thank you.
