

Year 3

After our exciting visit from The Bugman last week, year 3 have been working hard writing thank you letters to him and his bugs! To make sure our letters were as good as they could be we thought about the features we needed to use in our letters. We included an address, the date, an opening statement and who it was from. In our letters we told The Bugman about what we liked or didn't like about the animals and also asked him some questions at the end of our letters. In our maths lessons we have been working hard on our multiplication and division. We have used arrays to solve our calculations and we all worked really hard to draw our arrays accurately so we could work out the correct answer. Ask your child about them!

In the afternoons we have been busy designing 3D bugs ready for our art lessons next week. We are going to use our designs and actually make them! We also continued our rainforest Powerpoint presentations and took part in The Big Draw by creating paintings based on Faith Ringgold's work. Here is one of her paintings below.

We can't wait to make our 3D bugs next week and to perform our Black History Month song in assembly on Friday!
