

## Year 3

This week in year 3 we have been hard at work writing stories about the rainforest. We read the book *Where The Forest Meets The Sea* and imagined we were the boy entering the rainforest with his dad. We worked hard to include interesting language which would make our stories exciting for the reader. In maths we have been learning all about fractions. We have identified fractions of shapes and have found fractions of numbers by drawing arrays or partitioning.

During the afternoons we have been getting creative! We have made our own rainforest insects out of clay using our designs from last week. We had to be very careful to make sure our design was not too hard and that we could make it out of clay by ourselves. We have also spent a lot of time practising our song for Black History Month assembly on Friday. We are singing Bob Marley's *Three Little Birds* and we sound pretty good!

We are really excited to continue all our excellent work next half term and to start learning all about chocolate!
