

Year 3

Read all about it! In literacy year 3 this week have been writing newspaper articles about Charlie discovering the golden ticket. We looked closely at the features of newspapers to identify what should be included in our article and then planned the information we wanted to include. We began writing our newspaper but only started with the introduction because we wanted to make sure all our writing was as good as it could be.

In maths we looked at our number facts. We have been busy halving, doubling, rounding and estimating! We have had to use lots of prior knowledge, such as number bonds to 10, 20 and 100, to help us. We especially enjoyed our magic square investigation where we had to make each line on a 3 by 3 square add up to the same amount. What a challenge!

As part of our whole school anti-bullying week we had an afternoon looking at bullying. We watched a video of someone being bullied and thought about how they felt during the scenario. We then discussed what bullying actually is. We then looked at different scenarios and used the information from our discussion to decide whether it was bullying or not. The most fun part of our anti-bullying week was getting to dress up as heroes on Friday. We came as everything from Spiderman and Batman to our own made up superheroes and heroines! It was a wonderful day for everyone to be involved with.
