

Year 5

We have started a new topic in Year 5 this half term on Sound. The topic is called Good Vibrations. Children will be set homework which includes weekly tasks. Children will need to bring in their completed project to school for the last week of term.

Year 5 will continue their swimming lessons this half term.

As always, if any parents are available to accompany the children, please speak to the class teacher. Letters have gone out this week about our educational visit to the Science Museum. Please sign and return the permission slip to your child's teacher.

Have a great weekend. The Year 5 team.
