

## Year 6

This week year 6 have been having great fun during topic. They have been tasting Greek food and writing reviews, annotating maps, creating and filming weather reports and much more! Maths has been going well but not all children are practising their times tables - please ensure this work is on-going.

We have been lucky enough to have taken part in African dance workshops as part of Black History Month. We have also been exploring the work of black artist Sonia Boyce and creating work inspired by her.

Please ensure children are here punctually in the mornings to allow them not to miss out on any learning. We are still awaiting reply slips from some children regarding our SKY TV visit - please make sure these are returned ASAP.
